

BHARAT BHOKRE

Senior Full Stack Web Developer | 10+ Years Experience

+91-9584503334 | bharatbhokre33@gmail.com | Indore, Madhya Pradesh, India

PROFESSIONAL SUMMARY

- **10+ years of hands-on experience** in full-stack web development using React.js, TypeScript, [Node.js](#), Laravel, CodeIgniter, Wordpress and MySQL.
- **Successfully delivered many projects and websites** across e-commerce, healthcare, fintech, and fitness industries.
- **Proficient in building scalable** Single Page Applications (SPAs), robust RESTful APIs, and complex backend integrations.
- **Extensive experience in CMS ecosystems** with deep knowledge of custom plugins, themes, WooCommerce, and Shopify app development.
- **Strong knowledge of modern architectures**, state management (Redux Toolkit, RTK Query), real-time streaming (SSE), and multi-tenant architectures.
- **Proven team handling and project leadership**, cross-functional engineering teams using Agile methodologies (Asana, Trello).
- **Adept at version control** using Git (GitHub, Bitbucket) and managing deployment environments.

TECHNICAL SKILLS

- **Frontend:** React.js, TypeScript, Redux Toolkit, HTML5, CSS3, Bootstrap, Tailwind CSS, jQuery, AJAX, superbase, appwrite
- **Backend** Laravel, CodeIgniter, Wordpress, Node.js, Express.js
- **CMS:** WordPress, Shopify (Liquid), HubSpot, WooCommerce
- **Databases:** MySQL, superbase, appwrite
- **Integrations:** Formstack, Mailchimp, Elasticsearch, Third party Hooks and packages
- **Tools & Git:** Git, GitHub, Bitbucket, VS Code, FileZilla, PuTTY
- **DevOps:** Apache, basic server setup and deployment, Basic Aws
- **Management:** Asana, Trello, Agile/Scrum

PROFESSIONAL EXPERIENCE

Sr. Full Stack Web developer | WDT Technologies Pvt Ltd, Indore

Jan 2025 – Present

- Develop and optimize a scalable AI agent management platform using React, TypeScript, Redux Toolkit, and Vite.
- Build a multi-tenant SPA featuring real-time Server-Sent Events (SSE) streaming and a visual DAG workflow editor.
- Collaborate on system architecture to improve state management and application performance.
- Developed and maintained **WordPress and WooCommerce applications**, implementing custom plugins, REST APIs, and performance optimizations.

Sr. Full Stack Developer | Greychain Technology, Delhi

Aug 2022 – Dec 2024

- Led full-stack development of fintech platforms and high-performance mobile app backends.
- Architected and built scalable RESTful APIs and integrated secure third-party payment services.
- Managed a cross-functional development team, driving agile sprints, code reviews, and timely project delivery.
- Delivered **custom WordPress and WooCommerce e-commerce solutions**, integrating payment gateways, third-party APIs, and business-specific features.

Sr. React Js Developer | Clickspurr Technologies, Indore

May 2022 – Aug 2022

- Developed and deployed dynamic web applications using React.js and Node.js.

- Partnered with design and product teams to translate UI/UX mockups into responsive frontend interfaces.

Software Engineer | Bitcot Technologies, Indore

Dec 2015 – May 2022

- Developed, published, and maintained 5 Shopify public applications using Laravel and React.js.
- Built and customized **WordPress and WooCommerce e-commerce websites**, developing custom plugins, themes, and third-party API integrations.
- Managed end-to-end lifecycle of web applications, including system analysis, database schema design, and full-stack development.

KEY PROJECTS

React.js & Node.js Projects

- **MTX-Engines — AI Agent Control Panel** (Tech: React, TypeScript, Redux Toolkit, RTK Query, Vite, Tailwind CSS, Supabase)
Built a multi-tenant SPA for managing AI agents, tools, workflows, and widgets with real-time SSE streaming. Designed a unified HTTP bridge architecture with an interceptor pipeline across 17 RTK Query slices, and integrated a DAG workflow editor.
- **Fundly.ai — Fintech Platform** (Tech: CodeIgniter, MySQL, React.js, Node.js)
Developed a healthcare embedded fintech financing platform. Built core financial transaction pages, payment scheduling modules, and a multi-vendor admin console. Collaborated on scale architecture and REST services.
- **Oky — Period Tracker App** (Tech: Node.js)
Developed high-performance backend logic and predictive cycle prediction REST APIs based on historical customer logs.
- **Space Jammit — Cloud Storage App** (Tech: React.js, Node.js)
Designed a secure file storage platform featuring deep folder nesting, drag-and-drop operations, and file manipulation capabilities.
- **Lips — Social Media Platform** (Tech: React.js, Node.js)
Built responsive frontend UI and real-time feed updates for an emotional expression-focused social community platform.
- **Local Orbit — Food Market App** (Tech: React.js, Node.js)
Implemented multi-role authentication and data verification processes for organization food market managers.

Shopify Applications

- **Persistent & Share Cart** (Tech: Laravel, MySQL, React.js, JavaScript)
Developed a cart state synchronization engine to preserve and share cart data across multiple devices. Implemented secure REST APIs and lightweight frontend JavaScript injection for storefronts.
- **Preorder Automation** (Tech: Laravel, MySQL, React.js, JavaScript)
Engineered an automated preorder booking system supporting custom badges and expected delivery logic. Handled inventory sync webhooks and database schemas for preorder tracking.
- **Real Profit** (Tech: Laravel, MySQL, React.js, JavaScript)
Created a gross profit analytics app that integrates shipping, payment fees, and custom product costs to calculate real-time net margins. Built interactive dashboards for Shopify merchants.
- **My Wishlist** (Tech: Laravel, MySQL, React.js, JavaScript)
Designed a high-performance storefront wishlist widget with support for email sharing and quick add-to-cart operations. Built localized pop-ups and custom email templates for user engagement.
- **Volume & Tiered Pricing** (Tech: Laravel, MySQL, React.js, JavaScript)
Programmed a dynamic tier-pricing engine that automatically applies quantity discounts at checkout. Developed custom storefront banners and cart drawer notification bars.

WordPress & PHP Projects

- **Studio Sweat on Demand** (Tech: PHP, MySQL, WordPress, WooCommerce)
Built a fitness subscription platform featuring automated billing pauses, revenue reporting, and WooCommerce core customization. Developed RESTful APIs to sync user packages with mobile applications.
- **ResMed** (Tech: PHP, MySQL, WordPress)
Created a WordPress enterprise portal featuring B2B customer pricing, multi-tier user permissions, and custom approval workflows. Implemented tracking for package promotions and shipping logistics.
- **Belle Seeks — Beauty E-commerce** (Tech: Laravel, MySQL, WordPress)
Programmed an e-commerce storefront integrated with Elasticsearch to enable fast and relevant search queries. Designed a single-page checkout popup to optimize conversion rates.
- **Oxyensure** (Tech: WordPress, PHP, MySQL, BigCommerce)
Guided migration from WordPress to BigCommerce, creating dedicated landing pages and integrating Formstack data. Customized administration panel workflows.
- **Heugh Textile** (Tech: WordPress, PHP, MySQL, jQuery, Bootstrap)
Developed a corporate website for a modular flooring manufacturer with custom interactive showcases.
- **Silicon Beach Advisors** (Tech: Laravel, MySQL, jQuery)
Designed and developed a professional business consultancy landing page to drive client acquisition.

EDUCATION

Bachelor of Engineering in Computer Science | Central India Institute of Technology and Science (RGPV University)

EXTRA-CURRICULAR ACTIVITIES

Contributed to open-source projects and published technical articles related to React.js, Node.js and Shopify app development to share best practices with the developer community.

ACHIEVEMENTS

Delivered 300+ projects across e-commerce, healthcare, fintech and fitness verticals; published multiple Shopify apps and built enterprise WordPress/WooCommerce solutions.

ADDITION INFORMATION

Hobbies: Open Source Contribution, Technical Blogging, Running

Languages: English, Hindi
